WORK EXPERIENCE

Software Developer Intern – XIO Infotech, Gurgaon Feb 2026 – Jul 2026

- Developed REST APIs using Java Spring Boot and tested them using Postman.
- Designed and created the database for project modules.
- Built frontend pages with HTML, CSS and JavaScript and integrated them with backend APIs.
- Worked across the stack on project modules: database design, API development and frontend-backend integration.

Testing Intern – Solitera Software, Gurgaon Sep 2026 – Present

- Wrote and executed 100+ manual test cases across 6–7 web application modules.
- Reported defects, retested fixes and tracked them through the bug lifecycle.
- Performed API testing with Postman and performance testing with Apache JMeter; used XPath locators to identify UI elements.

PROJECTS

Personal Finance Tracker | Java, Spring Boot, JPA, MySQL, JavaScript Live Demo | GitHub

- Built a full-stack finance application with user registration/login, accounts, transactions, budgets, goals and recurring transactions.
- Designed 7 REST API resources and an 8-table MySQL schema using Spring Boot and JPA/Hibernate.
- Created an interactive Chart.js dashboard; deployed frontend on Vercel and backend with MySQL on Railway.

E-Commerce Website | PHP, MySQL, HTML5, CSS3, XAMPP GitHub

- Developed an e-commerce site with separate user and admin panels, product search, product details and shopping cart.
- Built an admin panel to manage products, categories and brands, backed by a MySQL database.

GitGrade | Python GitHub

- Built a repository analyzer that scores a GitHub project on code quality, structure, documentation and commit practices.
